

Policy: Technical Standards for Acceptance

To participate in the program, the applicant must possess specific non-academic skills. The technical standards described below are consistent with the duties of an entry-level radiographer in a professional position and are required in order to provide adequate patient care and produce a diagnostic radiograph.

The applicant should have the:

*Ability with reasonable accommodation, if necessary, to reach and position the patients on the imaging table.

*Ability with reasonable accommodation, if necessary, to move, adjust, manipulate equipment to perform imaging procedures.

*Ability to review and evaluate recorded images to determine the quality of the image with reasonable accommodation.

*Ability to communicate effectively with patients, doctors and other personnel so that the patient is not placed in an “at risk” situation.

*Ability to make proper decisions involving patient and co-worker safety.

*Ability with reasonable accommodation, if necessary, to hear sounds which are necessary to assess patient’s health status.
